Chris Kilham, Medicine Hunter

Hot Plants® for Her sexual enhancement
formula* was developed in collaboration
with medicine hunter Chris Kilham, a
leader in the field of plant medicine.

- This formula is based on the findings in his book,
Hot Plants, a guide to herbal support for sexual fulfillment.
- To develop this natural herbal formula, Kilham traveled to
remote areas of the globe in search of native healers with
traditional remedies for female sexual enhancement.*
- Enzymatic Therapy® took these herbs, combined them with
modern science and developed this unique formula to
safely enhance female sex drive and promote sexual
arousal and satisfaction.*
