

MELTDOWN® is a potent and scientifically advanced innovation based on the original MELTDOWN® formula, which is backed by six double-blind placebo-controlled university studies. The MELTDOWN® BioLiquid™ delivery is a lipid (fat) based system that releases active ingredients into your body slowly and steadily over a period of hours. This cutting-edge liquid system is designed to exert its effects powerfully without spiking energy levels to provide you with a pleasant experience while also enhancing the absorption and effectiveness of active ingredients.

Successful weight loss depends on targeting multiple metabolic pathways. Consequently, MELTDOWN® is designed to increase energy and calorie burning, suppress appetite, and enhance mood.†

RECOMMENDED USE: Begin use with one MELTDOWN® capsule to assess tolerance. Never exceed more than two total capsules daily or in a single dose.

CAUTION: Do not consume with any other caffeine-containing products, or if you have any medical condition, or you are taking any drug. Discontinue use and consult your doctor if you experience any adverse reaction. The consumer assumes total liability if MELTDOWN® is used in a manner inconsistent with the label guidelines. One serving (two capsules) contains 275 mg of caffeine, which is more than in two cups of coffee. Too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF PREGNANT OR NURSING OR CONTEMPLATING BECOMING PREGNANT OR IF YOU ARE UNDER THE AGE OF 18.

†When used in conjunction with exercise and a reduced-calorie diet.

†These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.

MELTDOWN®

FAT INCINERATOR™
