

Clinical studies show Panax ginseng significantly reduces feelings of stress and nervousness resulting in the enhancement of stamina, energy and a sense of well-being.* The proprietary Phytosome™ process, which combines one part standardized Panax ginseng extract with two parts phosphatidylcholine, creates active components that are more readily absorbed. In fact, over 100 scientific studies prove that Phytosome technology delivers the key compounds where you need them most—to the cells of your body.* That's Phytosome Power!

Recommendations: One tablet one or two times daily.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.
