

Peppermint PLUS® dietary supplement soothes the intestine with antispasmodic effects.* Enteric-coated softgels resist digestion in the stomach, and allow the formula to move to the intestines, where it's released for optimum benefit.*

The ingredients in this formula comply with the safety and efficacy standards set forth by the German Commission E, which is the world-wide recognized authority for effective herbal remedies.

Recommendations: One enteric-coated softgel between meals three times daily.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

ETI is an FDA-registered Drug Establishment.
