†Percent Daily Value based on a 2,000 calorie diet.

*Daily Value not established.

Other Ingredients: Cellulose, Stearic Acid and Silica.

Discussion: Malic Acid and Magnesium are essential to the production of cellular energy. These two substances are also active in the Krebs cycle and provide nutritive support for normal, healthy muscular energy. The exclusive KAL® ActiSorb® Base helps enhance absorption by stimulating gastric secretion and the body's natural thermogenic activity.

KAL Guarantees that NO ingredients other than those listed on this label have been added to this product.

ActivTab™ technology guarantees tablet disintegration within 30 minutes according to USP standards.

Bioperine® is a registered trademark of Sabinsa Corp.
