

SUGGESTED USE: Take 1–1½ rounded teaspoons twice per day at any time, at least 5 hours apart.

Individual needs may vary. Start with 1 rounded teaspoon daily and gradually increase to 1½ rounded teaspoons twice daily. When bowels are comfortably loose, this is the optimal amount. Some people may need to start with a half teaspoon only and gradually work up to higher amounts.

DIRECTIONS: Place powder in a glass or mug; add 2–3 oz of hot water. Let it fizz, then stir until dissolved. Fill with warm or cold water and enjoy. You can also simply add *Natural Calm Plus Calcium* to a glass or bottle of cold water.

Natural Calm Plus Calcium is formulated to prevent a surplus of calcium robbing the body's vital magnesium supply and to avoid the symptoms associated with depleted levels of magnesium. This premium formulation includes vitamin D, boron and vitamin C to facilitate the assimilation, distribution and utilization of calcium. *Natural Calm Plus Calcium* is excellent for athletes and anyone who works out. It assists in preventing muscle cramping and helps reduce lactic acid.*
