

Green & White Tea Force™

Organic Herbs of Longevity and Vitality*

Tea has been a medical treasure for at least five thousand years. In 2737 BCE, a Chinese medical text exalted tea as a health tonic, and in 780 ACE, the Chinese tea master Lu Yu explained that tea cured aches, pains, and depression.* In 1211, Eisai Myo-an, the founder of Zen Buddhism, praised tea as an elixir to promote good health and long life.* By the end of the 20th century, scientists identified hundreds of beneficial phytonutrients within the tea leaf that were shown to dramatically enhance immune and cardiovascular functioning and prolong healthy life.* In the 1990's researchers discovered the precise extraction temperature for the maximum delivery of tea's protective benefits. New Chapter® takes the world's finest organic white and green teas, extracts them at the perfect temperature, and delivers in concentrated form their full range of unique polyphenols for all to enjoy.*
