Discussion: Originating in India, turmeric root is a member of the ginger family. Turmeric has a long history of use as both a culinary spice and in traditional Ayurvedic medicine. The active constituent in turmeric, curcumin, is a polyphenol that gives the root its golden yellow color. Clinical studies suggest that curcumin may support healthy joints and help maintain a healthy cardiovascular system. Solaray® Turmeric Root Extract is a highly purified extract guaranteed to contain 95% curcumin.
