Supplement Facts Serving Size 1 Tablet

	Amount Per Serving	% Daily Value
Total Carbohydrate	<1 g	<1%†
Dietary Fiber	<1 g	<1%†
Standardized Kombu Extract (<i>Laminaria japonica</i>) (Supplying 300 mg Fucoidan)	750 mg	*

†Percent Daily Value based on a 2,000 calorie diet.

*Daily Value not established.

Other Ingredients: Cellulose, Stearic Acid and Silica.

Discussion: Fucoidan is a naturally occurring component found in specific edible seaweeds. Kombu (*Laminaria japonica*) is a Brown Marine Algae yielding highly branched Fucoidan Polysaccharides. Research suggests Fucoidan may help provide nutritive support for immune, enzymatic and cellular health. Brown Marine Algae has been used historically in many cultures for its medicinal, dietary and functional food properties. KAL uses only GMO Free Brown Marine Algae harvested from waters off the coast of Spain. The entire manufacturing process does not exceed a temperature of 110 degrees Fahrenheit.

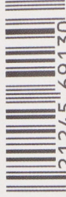

KAL Guarantees that NO ingredients other than those listed on this label have been added to this product.
