

Sea Buddies™ Concentrate! dietary supplement was developed in conjunction with Jeff Bradstreet, M.D., a Fellow of the American Academy of Family Physicians who has devoted his practice to the special learning needs of children. A portion of the sales of this product funds child development research.

Sea Buddies Concentrate! is a high-potency formula that supports brain health at a cellular level and overall health in the central nervous system.* It also promotes a relaxed state without diminishing daytime alertness and enhances detoxification processes.*

Suntheanine®, a patented form of L-Theanine, is a trademark of Taiyo International, Inc.

Recommendations: Begin with two capsules daily and monitor focus and concentration levels. If needed, increase dose until desired results are achieved, repeating this dosage as needed throughout the day. Do not exceed ten capsules daily unless directed by a healthcare practitioner. Capsules may be opened and mixed with your child's food or beverage. Not recommended for children under four years of age.
