Suggested Usage: Take 2 capsules daily between meals.

Norepinephrine and Dopamine are key neurotransmitters for the maintenance of alertness and mental acuity and for promoting a feeling of general well-being.* These two neurotransmitters are produced in the body from the amino acid precursors L-Tyrosine and L-Phenylalanine.* This conversion process also requires Vitamin C and B-6 as cofactors.* This product combines these important nutrients with other ingredients like Ginkgo biloba and DMAE to complement this formula.*
