Celery (<i>Apium graveolens</i>) (seed)	120 mg	*

*Daily Value not established.

Other Ingredients: Vegetable Cellulose Capsule, Maltodextrin (from Non-GMO Corn) and Silica.

Discussion: Tart cherries contain an abundance of nutrients, including anthocyanins and ellagic acid. Anthocyanins give cherries their distinct red color and have been clinically studied for their possible health benefits. Celery seed is a well-known spice that has been used medicinally throughout the world for thousands of years due to its rich concentration of volatile oils. This synergistic combination of herbs is intended to provide nutritive support for normal, healthy uric acid levels.
