

The World's Most Important Herb

Turmeric has long been revered as the foundation of an herbal program for health. In India's Ayurvedic tradition, turmeric has been recognized for thousands of years as a key balancing and detoxifying herb.* In Japan and China, people embrace turmeric for its powerful yet safe liver detoxification, and there are societies in Japan where turmeric juice is consumed daily.* In western scientific literature and herbal traditions, turmeric is considered by many leading scholars to be the most important herb on earth.*

We at **New Chapter** are proud that **Turmericforce** is the world's first supercritical full-spectrum turmeric extract. Our turmeric is extracted without chemical solvents or heat stress, concentrating the radiant turmeric oils as much as 200:1.

Turmericforce is not a mere isolate of standardized turmeric, offering just one or more of the curcuminoids. This is turmeric as nature intended – with its full complement of chemistries represented.

*Our premium softgel capsules are prepared without any chemical solvents and are **p**ri**o**n free.*
