The Ultimate Muscle-Amplifying Protein

NITRO-TECH® POWER is the latest musclebuilding innovation from MuscleTech®, the brand with over 20 years of excellence. NITRO-TECH® POWER contains several key ingredients shown in multiple clinical studies to help you pack on more muscle than ever. See the research for yourself!▲

Scientifically Superior Musclebuilding Protein

†To create the ultimate musclebuilding protein, MuscleTech® researchers started by packing 2 researched dose of 6g of creatine into every 2 scoops of NITRO-TECH® POWER.
In a double-blind, placebo controlled study, subjects supplementing with this same dose of creatine gained 11 lbs. of mass in 12 weeks (versus 7.5 lbs. for the placebo group).▲
Willoughby and Rosene, 2001. *Medicine & Science in Sports and Exercise.* 33(10):1674-81.

NITRO-TECH® POWER also contains a scientifically validated 2.5g dose of betaine (per 2 scoops), which has been shown in multiple studies to increase strength and lean muscle. In a gold-standard study, subjects gained 3.75 lbs. of muscle in 6 weeks (vs. 0.66 lbs. for the placebo) – an incredible 5 times the muscle!▲

Hoffman et al., 2009. *Journal of the International Society of Sports Nutrition.* 6:7.

Increased Muscle Strength and Amplified Recovery

†This super-engineered formula is loaded with 14.8g of BCAAs, including 8g of highly anabolic leucine (in 2 scoops), and is sure to ignite protein synthesis and put your body in a prime anabolic state. The amount of leucine found in just one scoop of NITRO-TECH® POWER has been scientifically shown to increase strength by over 40%!▲
Ikeuchi et al., 2011. *International Journal of Sports Physiology and Performance.* 6(1):38-50.

†What's more, this complete formula also features the 480mg dose (per 2 scoops) of tart cherry powder that has been shown in emerging research to improve recovery through the reduction of muscle soreness post-exercise.▲
Connolly et al., 2006. *British Journal of Sports Medicine.* 40:679-683.

Enhanced ATP Regeneration and Free Testosterone Support

▲NITRO-TECH® POWER delivers a potent dose of creatine, which research has shown can help your body regenerate ATP energy stores depleted during resistance training.▲
Rahimi et al., 2007. *Journal of the International Society of Sports Nutrition.* 4:6.

▲MuscleTech® researchers also included the scientifically studied 200mg dose of boron citrate (per 2 scoops) supplying a dose of boron that has been shown to decrease estrogen and increase free testosterone within the normal range in only 7 days.▲
Naghii et al., 2011. *Journal of Trace Elements in Medicine and Biology.* 25:54-58.
