

Serrapeptase is a protein digesting enzyme discovered in bacteria native to the digestive system of silkworms.

Serra-125K™ utilizes delayed release technology, which allows the enzymes to survive the acidic conditions of the stomach and promote optimal absorption.\*

**Suggested Use:** Take 1 capsule up to three times per day with 8 oz. of water on an empty stomach or as directed by your health care professional. For best results, take at least 60 minutes before or 2 hours after a meal.
