

We believe that **Amazing Nutrition®** is the key for Healthy Living. We are passionate about bringing you the finest selection of products which can perfectly complement a healthy diet and active lifestyle.

CLA (Conjugated Linoleic Acid) is a naturally occurring fatty acid (a good fat present in foods such as meat, cheese and dairy products at low levels). Obtaining CLA from the diet may be problematic since it is present in very low levels in foods that also contain high amounts of saturated fat. Amazing Formulas™ CLA makes it easy to add an optimum dosage of CLA to your diet. CLA is known to support healthy weight management while promoting lean muscle mass and preserving muscle tissue.* CLA is a potent antioxidant; it supports a healthy immune system, helps to increase metabolic rate and promotes overall well-being.*
