Made with ONLY 97% Whey Protein Isolate
Whey protein isolate is produced to deliver less fat, carbs, cholesterol, lactose and impurities. But, not all isolates are created equal. NITRO-TECH® 100% ISO WHEY is formulated with only 97% whey protein isolate to create the purest protein formula available. The protein in NITRO-TECH® 100% ISO WHEY has been purified through a unique, selective ion-exchange process, resulting in a 97% level of purity, making it a premium, high biological value protein source. You work hard to build the body you want, so make sure you fuel it with only the best.

Featuring ProHydrolase® Designed for Better Amino & BCAA Absorption
Protein and amino acids, particularly BCAAs, are essential to muscle growth and recovery. That's why NITRO-TECH® 100% ISO WHEY features the digestive enzyme combination ProHydrolase®, which is designed to help quickly and efficiently break down protein into a bio-usable form. In a clinical study on protein digestion, subjects who consumed whey protein in combination with ProHydrolase® experienced an average of 20% better amino acid absorption vs. taking whey protein alone.▲

The Highest Protein Percentage Per Scoop
Other whey isolate formulas on the market are clean, but we're cleaner! For each 29g scoop, NITRO-TECH® 100% ISO WHEY provides 25g of protein. This means 86% of each scoop is pure, musclebuilding protein. We achieve this level of purity by including only the highest quality protein source, ProHydrolase® and flavoring. This formula is as lean as it gets!▲

Product	% Protein Per Scoop	Carbs	BCAAs	Leucine
NITRO TECH ISO WHEY	86%	<1g	5.8g	3g
Competitor 1	84%	1g	5.3g	2.6g
Competitor 2	83%	1g	5.5g	2.7g
Competitor 3	83%	1g	5.5g	2.5g

Superior Quality You Can Trust
• Ion Exchanged • Gluten Free • No Banned Substances

Supplement Facts

Serving Size: 1 Scoop (29g)
Servings Per Container: Approx 29

Amount Per Serving	% Daily Value
