

THE MOST EXTREME SINGLE-SCOOP PRE-WORKOUT

Shatter™ is an extremely powerful, scientifically engineered, single-scoop pre-workout for shirt-splitting pumps and advanced strength performance. This cutting-edge formula also delivers a powerful energy and sensory complex to propel you through any training session.▲

ADVANCED MUSCLEBUILDING & PERFORMANCE

Most pre-workout formulas are nothing more than various stimulants mixed with a few underdosed pump ingredients. Shatter™ stands out with scientifically studied doses of betaine (2.5g) and beta-alanine (3.2g) for real musclebuilding power. The powerful

pump matrix combines 4g of pure L-citrulline with scientifically researched CitraPeak™ plus patented NO3-T® red spinach extract, to increase nitric oxide levels and support vasodilation for the most intense pumps.▲

UNPARALLELED ENERGY & ENHANCED FOCUS

The precise blend of neurosensory ingredients includes a dual-sourced dose of choline and L-theanine, plus a research-inspired dose of caffeine anhydrous for energy and focus.▲

FLAVOR SATISFACTION GUARANTEED

MuscleTech® has partnered with the world's top flavor houses to deliver a taste experience in every scoop of Shatter™. So, when your goals are so close that you can taste 'em, drink up. You're guaranteed to love it.

DIRECTIONS:

To assess your tolerance, take 1/2 serving (1/2 scoop) with 6 oz. of water for up to 3 days. Once your tolerance has been assessed, take 1 serving (1 scoop) with 12 oz. of water, 30 to 45 minutes before your workout. Do not exceed 1 scoop within a 24-hour period. Drink 8 to 10 glasses of water daily for general good health.
