

PERFORMANCE-ENHANCING BCAAs & ELECTROLYTES

Ensure you're maximizing muscle recovery and peak performance with the addition of BCAAs to your regimen. Designed with the competitive athlete in mind, MuscleTech® researchers have created a superior BCAA formula. Amino Build® is a scientifically dosed muscle- and performance-enhancing formula designed to supply your body with the critical BCAAs you need to boost your strength and support recovery. This advanced formula can be taken before, during or after training, and it will help build more muscle than regular amino formulas.*

BUILD 3.75 LBS. OF LEAN MUSCLE IN 6 WEEKS

Amino Build® contains a scientifically validated dose of betaine to support muscle endurance and lean muscle. In fact, in a clinical study, subjects using the exact dose of betaine built 3.75 lbs. of lean muscle in 6 weeks compared to 0.66 lbs. by the placebo group. More muscle, more power and better results are yours.*

BOOST STRENGTH BY 40%

Amino Build® has the same 4g dose of leucine shown in a research study (conducted at a leading international university) to help subjects increase their 5-rep max strength by 40%!

BOOST ENDURANCE PERFORMANCE FROM THE FIRST DOSE

The 1g dose of taurine found in a full serving of Amino Build® has been shown by research on trained athletes to enhance endurance performance. Give your muscles the fuel they need to perform with Amino Build®.*

REPLENISH ELECTROLYTES

The right fuel. The right delivery. The right formula. Amino Build® delivers coconut water and watermelon juice, plus essential electrolytes to help replace what is lost during exercise. We've done the research — the only thing left to do is train.*

Directions: Mix 1 scoop with 8 oz. of water. Read the entire label before use and follow directions provided. If you want to add to your overall daily BCAA intake without the additional calories from drinking multiple protein shakes, you can also add 1 scoop to a jug of water and drink it over time.

WARNING: Not intended for use by persons under 18. Do not use if you are pregnant or nursing. Consult a medical doctor if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

Do not use if packaging has been tampered with. Store in a cool, dry place (50°F to 80°F).
