

We believe that Amazing Nutrition<sup>®</sup> is the key for healthy living. We are passionate about bringing you the finest selection of products which perfectly complement a healthy diet and active lifestyle.

L-Citrulline is an amino acid and precursor of L-Arginine; it is converted into L-Arginine once inside the body. L-Citrulline helps to increase nitric oxide levels in the blood.\* Higher nitric oxide levels may help relax and dilate blood vessels, thus increasing blood circulation to various organs, including the heart, skin and sexual organs.\* L-Citrulline supports cardiovascular health.\* It may also help the body rid itself of ammonia, a by-product of exercise.\* This clearing may enable the body to recover faster after a workout.\*
