

We believe that Amazing Nutrition® is the key for Healthy Living. We are passionate about bringing you the finest selection of products which can perfectly complement a healthy diet and active lifestyle.

L-Citrulline is an amino acid and precursor of L-Arginine; it is converted into L-Arginine once inside the body. L-Citrulline helps to increase nitric oxide levels in blood.* Higher nitric oxide levels may help relax and dilate blood vessels, thus increasing blood circulation to various organs, including the heart, skin and sexual organs.* L-Citrulline supports cardiovascular health.* It may also help the body rid itself of ammonia, a by-product of exercise.* This clearing may enable the body to move faster after a workout.*
