| Dietary Fiber      | 0 g    | 0%  |
| Sugars             | 0 g    |     |
| Protein            | 4 g    | 8%  |
| Calcium            | 40 mg  |     |
| Phosphorus         | 25 mg  | 2%  |

% Daily value is based on a 2,000 calorie diet. † Daily Value Not Established

Other Ingredients: Proprietary Covalent Bonded Glutamine  
32% glutamine by weight.

Recent publications have stated that covalent-bonded glutamine delivers up to 10 TIMES MORE GLUTAMINE to the blood stream than L-glutamine.

Studies by P.D. Fairclough et al, G.K. Grimble et al, and D.B.A. Silk et al, have shown that all amino acids are faster and more "even" from oligopeptide chains than from the equivalent free amino acids mixtures in the human intestine.

# C-GLUTAMINE

## Multi-Benefit Super Nutrient

- Supports immune, heart and intestinal cells\*
- Preserves and maintains muscle tissue\*
- Improves cognitive function\*

300 Grams (Powder)  
Dietary Supplement

**ABOUT C-GLUTAMINE:** C-Glutamine is a new type of glutamine supplement, which is up to ten times more bioavailable than traditional L-glutamine supplements. Glutamine is a natural amino acid found in foods and made within the body in small amounts. Athletes and sports nutritionists have known about glutamine for years because of the support it provides to muscle tissue. Many healthcare professionals also recommend glutamine for intestinal and immune function.

**READ FIRST:** Children, women who are pregnant or nursing, and those who are being treated for a medical condition should consult a health care provider before using any dietary supplement.

**SUGGESTED USE:** Add one or more scoops of C-Glutamine to food or blend with any liquids, hot or cold. Consume 1 to 3 times daily. Suitable for pets.

\*These statements have not been evaluated by the FDA. This dietary supplement is not a drug and is not intended to cure, treat, prevent or mitigate any disease or health condition.
