

Testosterone is a male sex hormone that plays key roles maintaining masculine characteristics. As a man ages, his testosterone production declines resulting in changes in cognitive function, sex drive, muscle mass, strength, and power. Furthermore, changes in metabolism make it difficult for aging men to maintain youthful body composition.

Testosterone-Extra Fat Burner™ is a dual-pronged formula designed to boost testosterone while also helping the body burn fat by increasing metabolism and thermogenesis.

Testosterone Support: KSM-66® Ashwagandha Extract promotes mental sharpness, balanced energy, and increased stamina, while also helping to maintain healthy testosterone levels already within normal range.* Complementary ingredients include extracts of Shilajit, Stinging Nettles Root and Onagraceae, as well as targeted nutrients including Boron, Zinc, and Vitamin D3.

Fat Burning: The combination of EGCG from Green Tea Extract and natural caffeine from Coffee Bean, while not literally "melting" fat off the body, supports increased thermogenesis and fat burning (fat oxidation). To complement this action we've included Chromium and B-vitamins for advanced metabolic support, plus Cinnamon Extract and Cayenne which are featured in traditional metabolic supportive formulas.*

The search is over—you've found your new secret weapon. Use daily for optimal results.

What makes us different:

Liquid Soft-Gels - The nutrients in these easy-to-swallow Liquid Soft-Gels are released fast. Other forms of delivery can contain binders and fillers that may cause stomach upset and offer no nutritional value. Advanced Liquid Soft-Gels provide an optimum delivery system.
