

ThermoDyne™

[r262] 1002 mg

The New Super-Powerful "Fat Burner"... Are You Man Enough?

Ever since the FDA banned ephedra from the market, people have been looking for something that could give them the same incredible weight-loss and energy benefits, but without the health risks. Well now it seems that "something" is finally here. It's a body-shredding fat burner designed to help optimize the three phases of fat burning — lipid release, transport and metabolism* — to increase your calorie and fat burn so you get ripped at an unbelievable rate.

It's called ThermoDyne™, an extremely powerful High-Yield Stimulant Complex that helps promote thermogenic fat oxidation, burn calories, and increase metabolism:

Where's the proof? ThermoDyne's novel, high-potency, anthocyanin- and flavanone-rich complex was tested in a 12-week, double-blind, randomized, placebo-controlled human clinical trial involving 20 overweight volunteers (mean BMI 28.3). The subjects were randomly divided into two groups: an experimental group that received the fat-burning complex in ThermoDyne and a placebo group that received identical-looking capsules of maltodextrin (sugar pills). Subjects were instructed to take one serving in the morning and one with their main meal for a total of two servings per day. During the trial, the subjects were specifically told not to "diet" and maintained their previous eating habits (1500-2000 kcal/day) and daily physical exercise.

Study Results: In addition to a truly significant loss of body weight, the study showed that the majority of the weight loss came from fat mass: Not simply body weight, but actual fat mass. The experimental group showed a mean reduction of 15.6% body fat, which was a significant improvement over baseline and over the placebo group.

One thing is for sure, this super-powerful fat burner is not for everyone. If you have high blood pressure, diabetes, suffer from any type of psychosis, take MAO inhibitors, or if you are not in overall good health, this new high-potency formulation is definitely not for you. But if you're healthy enough — and man enough — for one of the most powerful fat burners on the market, you need ThermoDyne.

NOTE: Limit the use of stimulant-containing supplements, food or beverages (including caffeine) while taking this product because excess consumption of stimulants may cause nervousness, irritability, sleeplessness and occasionally, rapid heart beat.

DIRECTIONS FOR USE: Take two capsules in the morning and two capsules with your main meal, for a total of four capsules per day. Do not exceed four capsules per day.

WARNING: Do not take more than two capsules in any 4-hour period. Do not exceed four capsules in any 24-hour period under any circumstances. This product contains a significantly potent xanthine (stimulant) mixture, of approximately 200 mg per serving. Before taking this product, consult your physician if you are taking caffeine-containing supplements or if you are sensitive to stimulants. Consult a physician or licensed, qualified health-care professional before using this product if you have had, or have a family history of, the following conditions: high blood pressure, cardiovascular disease, thyroid disease, seizure disorder, diabetes, recurrent headaches, depression or other psychiatric condition. Read the label and follow directions. Discontinue use and call a physician or licensed health-care professional immediately if you experience rapid heartbeat, dizziness, severe headache, shortness of breath, or other similar symptoms. Consumption in excess of the recommended servings, or consumption of a serving at a more frequent interval than recommended, may cause serious adverse health effects. Not intended for use by pregnant or nursing women. Not for use by individuals under the age of 18 unless directed by a doctor. Do not exceed suggested daily serving. Do not use if you are allergic or contraindicated to aspirin. If you are taking aspirin or blood thinning or other medication, consult your physician before using this product. Discontinue use two weeks prior to surgery or if upset stomach occurs. **Use only as directed. Keep out of reach of children.**
