

Thank you for choosing Chlorella by LIDTKE. We sincerely wish the best of health for you and your family. LIDTKE Daesang (*Gold Medal*) Chlorella is cultivated indoors in a closed, pure environment, yielding consistently higher quality without the high risk of industrial contamination found in outdoor cultivation.* LIDTKE indoor cultivation produces a soft, much thinner cell membrane with higher digestibility, better taste, and no need for "broken cell wall" processing used on other chlorella products.*

Chlorella is an exceptional source of chlorophyll, vitamins, minerals, omega-3 fatty acids, and a complete source of all nine essential amino acids.*

LIDTKE stands behind each product and guarantees customer satisfaction for 365 days from the date of purchase.
