

These POWERFUL Stacks when used together are designed to help promote the ultimate Anabolic physique.*†

	STACKING PROTOCOL	PRE-WORKOUT	POST-WORKOUT	NON-WORKOUT DAYS	MORNING	AFTERNOON
WORKOUT DAYS	BETA-ALKALINE™	x1 30-45 MIN PRIOR			x1	
	CREATINE-ALKALINE™		x2 IMMEDIATELY AFTER			x2
	GLUTA-ALKALINE™	x1 1-2 HOURS PRIOR			x1	
	LEUCINE AGMA pH™		x1		x1	
NON-WORKOUT DAYS						

Beta-Alanine (as the gold-standard CarnoSyn®) and **Glycerol Monostearate** in a precise weight-to-weight ratio, for optimal activity: CarnoSyn® is shown in studies to deliver a bio-friendly form of Beta-Alanine for supporting synthesis of muscle carnosine, which acts as a buffer, delaying muscle fatigue and failure. Glycerol Monostearate enhances muscle volumization, among other potential benefits, and pairs perfectly with CarnoSyn®. For optimal nutrient uptake, the patent-pending pH Balanced Alkaline Buffering System **pH-Sorb™** has been added, which is designed to directly influence the acidity levels of the stomach for optimal digestion.*†

Warnings: Not intended for use by persons under age 18. Do not exceed recommended dose. Get the consent of a licensed physician before using this product, especially if you are taking medication, have a medical condition, you are pregnant, nursing or thinking about becoming pregnant. **KEEP THIS PRODUCT AND ALL SUPPLEMENTS OUT OF THE REACH OF CHILDREN.**
