RECOMMENDED USE:

SWISSE ULTIBOOST RELAX & SLEEP is a premium quality formula to help relieve nervous tension and restlessness, provide support during mental stress and assist with a natural restful sleep.*

Sleep Support: Passionflower is traditionally used in Western Herbal Medicine to help relieve tension, restlessness, irritability and encourage restful sleep.*

Nervous Tension Relief: Hops is traditionally used in Western Herbal Medicine to help relieve nervous tension and assist relaxation to encourage a restful sleep.*

Mild Symptoms of Mental Stress: Lemon Balm is traditionally used in Western Herbal Medicine to help provide support during mental stress and assist sleep.*

Healthy Muscle Function: Magnesium supports muscle relaxation by binding to receptor sites normally reserved for calcium, which is the mineral that causes muscles to contract.*
