

PLANT-SOURCED MINERALS are a purified water extraction of soluble plant-derived minerals. The minerals are sourced from a prehistoric plant deposit called Senonian Vegetate, formed approximately 70 million years ago. This vegetate is mineral-rich organic soil derived from plants and naturally protected from mineral depletion. *Plant-Sourced Minerals* are minimally processed and include naturally occurring humic and fulvic acids, polysaccharides, lipids and other valuable nutritional cofactors. *PSM* delivers a complex of more than 70 plant-based, small-particle, bioavailable life-sustaining trace minerals in an easily digested and assimilated form.

CRUELTY-FREE, ALLERGEN-FREE • CONTAINS NO DAIRY, EGG, WHEAT, CANE SUGAR, OR ARTIFICIAL COLOR OR FLAVOR
