DIETARY SUPPLEMENT

205.8 GRAMS (7.26 OZS) V. 1.1

Alpha-G is a vegan, whole food supplement, made with organic rice, sourced and manufactured in the U.S.A. Alpha G may help to support the body in its natural functions of cellular regeneration, detoxification and immune resiliency. A proprietary process reduces the particle size of the rice which may help in the absorption and efficacy of the PolySaccharidePeptides.

Suggested Use: Begin with one serving or less per day and gradually increase to three or more servings per day or as directed by your health care provider. Mix the Alpha-G, using a shaker bottle, in 10-12 ounces of cool or room temperature water. Shake well. Alpha-G may be best absorbed on an empty stomach. Avoid mixing Alpha-G in any liquid/food that has dairy or sweetener. If desired, Alpha-G may be mixed in any other liquid/food.

Contains no added dairy, wheat, gluten, sugar, chemicals, fillers, binders, artificial colors, artificial flavors, additives or preservatives.

Warning: If you are pregnant, nursing or on medications, consult a health care professional before using this product.
