

"I knew I could create formulas that would truly change lives."

Dr. Stephanie Redmond

Our story....

As a doctor of pharmacy and certified diabetes educator, I've focused my entire career on helping people manage and reverse diabetes with natural therapies and as few medications as possible. There are medical studies that show incredible benefits from combinations of specific herbs, vitamins, and minerals when used at the correct doses.

I was frustrated that there were no products available that contained **enough of or the right** active ingredients. Using medical research, I formulated my own products so that patients could get the most effective combination of ingredients, at high enough doses, with fewer pills, and from one trusted source.

With my high-quality innovative blends, you can feel confident you are getting natural supplements that are truly worth taking.*

Capsules

A DIETARY SUPPLEMENT

What Makes Our Supplements Superior?
QUALITY • POTENCY • RESEARCH

If you are taking anything less, you are likely missing the benefits of natural supplements.*

Learn About How It Works:

PANCREAS & INSULIN HEALTH: The powerful blend of cinnamon, banaba, magnesium, and chromium promotes healthy function of pancreatic beta-cells (the insulin producing cells) – supporting the body's natural insulin function, healthy blood sugars and A1C levels.*

LIVER & KIDNEY HEALTH: Milk Thistle has been shown to support healthy markers of kidney and liver function.*

EYE HEALTH: Bilberry has been shown to support eye health and vision in adults with diabetic retinopathy.*

NUTRITIONAL SUPPORT: Healthy levels of Vitamin B12 are essential for nerve health.

Supplement Facts
