Sunbiotics is honored to introduce our potent and purely formulated vanilla probiotic powder. Our proprietary formula is entirely food based, organic, and comes enhanced with Jerusalem artichoke inulin and yacon root, both renowned for their prebiotic effect.

Yacon contains naturally occurring nutrients known as fructooligosaccharides that stimulate the growth and activity of probiotics (beneficial bacteria).*

In addition to potent superfoods, each serving of Sunbiotics boasts 20 billion CFUs** of 4 well researched stable probiotic strains. Sunbiotics may help restore a proper balance of flora in the digestive system depleted by stress, antibiotics, and gastrointestinal disturbances.*
