Zinc (as zinc oxide)	15 mg	100%	100%
Copper (as copper oxide)	↘ 1.5 mg	75%	75%

OTHER INGREDIENTS: dicalcium phosphate, microcrystalline cellulose, stearic acid, aqueous coating, croscarmellose sodium, silica, magnesium stearate, titanium dioxide.

INDICATIONS: PRENATE ELITE® is a multivitamin/multimineral dietary supplement indicated for use in improving the nutritional status of women throughout pregnancy and in the postnatal period for both lactating and nonlactating mothers. PRENATE ELITE® can also be beneficial in improving the nutritional status of women prior to conception.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

KEEP THIS AND ALL MEDICATIONS OUT OF THE REACH OF CHILDREN.

PRECAUTIONS: Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where Vitamin B₁₂ is deficient. Folic acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurologic manifestations progress.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

DOSAGE AND ADMINISTRATION: One tablet daily or as directed by a physician.

HOW SUPPLIED: PRENATE ELITE® is supplied in child-resistant bottles of 90 tablets (75854-301-90).

The listed product number is not a National Drug Code, but has instead merely been formatted to comply with standard industry practice for pharmacy and insurance computer systems.

Store at 20° - 25°C (68° - 77°F); excursions permitted to 15° - 30°C (59° - 86°F) [See USP Controlled Room Temperature.]
