

SUPERCHARGED WHEY PROTEIN ISOLATE FORMULA

For more than two decades, athletes have trusted MuscleTech® to push science and human potential to their limits — and Nitro-Tech® Elite is the culmination of this ambition. This powerful formula was engineered by MuscleTech® researchers to contain synergistic key ingredients shown in multiple clinical studies to help pack on more muscle, increase strength and maximize power. It features only premium whey protein isolate for superior absorption and digestibility, easy mixing and high levels of essential branched chain amino acids.*

THE ULTIMATE, 5-IN-1, MUSCLE-AMPLIFYING PROTEIN*

Our passion meets your potential. Nitro-Tech® is the culmination of decades spent obsessing over formulations, acquiring patents and funding research — and the work's paid off. Nitro-Tech® Elite is the only protein boosted with scientifically dosed creatine, myHMB® calcium HMB and ProHydrolase®, along with NordicCherry®.

20% BETTER AMINO ACID ABSORPTION VS. WHEY PROTEIN ALONE

ProHydrolase® is designed to maximize the performance benefits of protein. One clinical study showed that subjects who consumed whey protein with ProHydrolase® experienced an average of 20% better amino acid absorption versus taking whey protein alone.*

BUILD 4 TIMES MORE MUSCLE

Here's the proof. In a 12-week study involving 22 untrained subjects, those combining the dose of creatine found in 2 servings of Nitro-Tech® Elite with a weight training program gained over four times more lean muscle compared to the placebo (7.12 lbs vs. 1.30 lbs.).*

BOOST MUSCLE RECOVERY

Nitro-Tech® Elite delivers a clinically studied dose of NordicCherry®, plus pure myHMB® calcium HMB, shown to increase muscle recovery and protein synthesis by combatting muscle breakdown.*

ALL KILLER, NO FILLER

Nitro-Tech® Elite contains one of cleanest sources of protein available: WPI. This highly potent whey protein isolate is ultra-clean and features one of the highest biological values of any protein source.
