Citrus Pectin	30 mg	*

*Daily Value not established.

Other Ingredients: Vegetable Cellulose Capsule, Magnesium Stearate, Cellulose, Silica, Stearic Acid, Buffering Base (Calcium Carbonate and Magnesium Oxide).

Discussion: Vitamin C provides antioxidant activity and is intended to help normal, healthy collagen synthesis, capillary and blood vessel integrity, cartilage and bone development, immune function, and nerve impulse transmission. This product also contains Calcium Carbonate and Magnesium Oxide to buffer the natural acidity of Vitamin C. This two-stage, timed-release formula is designed to release half of the Vitamin C in this product rapidly and the other half gradually over a period of up to 12 hours** which may help extend the availability of the Vitamin C to the body over a longer period of time.

**Based on in-vitro dissolution tests designed to simulate the digestive process. Individual results may vary.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.
