

SUGGESTED USAGE: Take 1 capsule 3 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: Naturally found in certain fruits and vegetables, calcium-d-glucarate is a biochemical compound that supports healthy glucuronidation, a natural process in which normal cells eliminate microscopic waste and the by-products of detoxification.* In this way it is especially helpful in promoting cellular health in liver, prostate and breast tissues.* Taken as a supplement, calcium-d-glucarate encourages elimination of typical environmental toxins and normal hormone metabolites through its support of healthy detoxification mechanisms.*

CAUTIONS/INTERACTIONS: For adults only. Do not take if you are pregnant/nursing. Consult your healthcare practitioner if taking medication or have a medical condition. Keep out of reach of children.
