

SUGGESTED USAGE: Take 1 capsule 2 to 4 times daily, or as directed by your healthcare practitioner.

Refrigeration recommended after opening.

HOW IT WORKS: SAME (S-adenosylmethionine), a compound native to the body, is a critical component of many biochemical reactions, including those that affect brain biochemistry and joint health.* Numerous studies have indicated that SAME can help to alleviate transient normal aches and pains resulting from overexertion or stress.* In addition, because SAME is also necessary for the synthesis of neurotransmitters, it plays an important role in the maintenance of a positive mood.*

CAUTIONS/INTERACTIONS: Theoretically, SAME could increase the effects and adverse effects of products that increase serotonin levels, including 5-hydroxytryptophan (5-HTP), Hawaiian baby woodrose, L-tryptophan, and St. John's wort. In addition, SAME may interact with MAO inhibitors, L-Dopa, antidepressants and other serotonergic drugs. Consult healthcare practitioner if pregnant/nursing, taking medication, or have a medical condition, especially bipolar or anxiety disorders.

Natural color variation may occur in this product.
