CAPSULES**

Did you know?

Testosterone plays a key role in promoting sexual arousal and libido, promoting lean muscle mass AND energy! ^†

Unfortunately, after age 30, most men begin to experience a gradual decline in free testosterone. It is said that men starting at 40 years will lose about 1% of their free testosterone levels each year as part of the normal aging process!

Whether you are in your 30's, 40's or golden years; here are a few healthy habits you can incorporate to support general men's health & wellness ^:

**TAKE A STEP BACK, AND ANALYZE
YOUR CURRENT DIET & LIFESTYLE.
MAINTAINING A HEALTHY WEIGHT
IS VERY IMPORTANT.**

**MAKE SURE YOU'RE GETTING
ENOUGH SLEEP. ADULTS NEED AT
LEAST 7 HOURS OF SLEEP A NIGHT.**

**AIM FOR AT LEAST 30 MINUTES
OF MODERATE PHYSICAL
ACTIVITY EVERY DAY.**

Directions: Adults, take one (1) capsule with a morning meal, and one (1) capsule with an evening meal. As a reminder, discuss the supplements and medications that you take with your health care provider.
