HERBTONICS comes from the ancient words "herb" and "tonic." The Latin word "herb" describes a plant valued for its medicinal properties, whereas the Ancient Greek word "tonic" describes a medicine intended to restore. Together we have formed "Herbtonics" to promote all-natural methods of using herbs to restore and inspire optimal health through innovation. At Herbtonics, we provide supplements containing authentic ingredients powered by ground-breaking science aimed at helping you achieve a new level of well-being - one that will make you say, "Yes, I will heal!". *
