

White Kidney Bean is a legume, and just as the name suggests, the kidney bean is shaped like a kidney. Kidney beans that are white in color are also known as cannellini beans. Kidney beans are part of a group of beans that are known scientifically as *Phaseolus vulgaris*. They are often referred to as "common beans" since it is believed that all of them are derived from a common bean ancestor that originated in Peru. An herbaceous, annual plant, white kidney beans are now grown worldwide.

Futurebiotics® White Kidney Bean Extract provides 500 mg of pure *Phaseolus vulgaris* extract per capsule without any added caffeine or other stimulants.
