

20% MORE FREE!

SUGGESTED USE: As a dietary supplement, take 1 capsule 30 minutes prior to workout and 1 capsule right after workout.

ADVANCED USAGE FOR BEST RESULTS:

UP TO 175 LBS.
1 capsule before & 1 capsule after workout.

175 LBS. & ABOVE
2 capsules before & 2 capsules after workout.

**THE KRE-ALKALYN® EFX DIFFERENCE...
IT'S BUFFERED. IT'S STABLE. IT WORKS!**

Kre-Alkalyn® EFX represents a major breakthrough in performance supplementation thanks to its multi-patented, 'pH-Correct®' creatine stabilization technology. Our Scientist Dr. Jeff Golini (pictured) discovered that "buffering" to pH-12 produced a stable creatine monohydrate molecule.*

PH-CORRECT® MAKES IT A CATEGORY OF ONE!

Kre-Alkalyn® EFX is the only creatine monohydrate product with a pH of 12 because its molecules are synthesized with 'buffering' agents using a patented (#6,399,661) manufacturing process to make it pH-Correct®.*

*Creatine stability is negatively influenced by acids and liquids at pH 6.9 or less. (#6,399,661). Kre-Alkalyn® is the only creatine with patent-protection from pH 7 to pH 14.***

STORAGE: Keep lid tightly closed in a cool, dry place away from children.
ALLERGENS: None.
