GASTRICELL with *Lactobacillus johnsonii* No. 1088

Unhealthy lifestyles, excessive use of painkillers and gastrointestinal infections can cause irritations to the stomach lining, leading to abdominal pain, bloating, indigestion as well as gastric acid backflow and heartburn. Options available to soothe these symptoms are often temporary and recurrence is common, this can lead to long-term dependency on medications.

A Safe, Natural Formula that Targets Recurring Gastric Symptoms

GASTRICELL is an effective tri-action formula that supports long-term relief from stomach discomfort[^]. Comprising a scientific breakthrough and novel strain of probiotic, *L. johnsonii* No. 1088, and fortified with *B. longum* and oligosaccharide, **GASTRICELL** targets its actions at the root cause of troubled spots to help deliver long-lasting effects for good gastrointestinal health.[^]

***L. johnsonii* No. 1088 is scientifically proven to:**

- ✓ Support reduction of overactive gastrin[#] and gastric acid secretion[^]
- ✓ Support defense against gastrointestinal infections[^]
- ✓ Balance intestinal flora[^]
