

Based on a study of mean serum CoQ10 values during supplementation of 150 mg of CoQ10 with and without 1 mg of BioPerine®.

The increase in the area under the curve CoQ10 over was 80% while the absolute change in serum CoQ10 values was 30%. This demonstrates that BioPerine® may be administered safely and effectively with CoQ10 to deliver this important compound to the body in a more predictable way.
