

What am I?

I'm a plant-based collagen booster,¹ packed with protein, vitamin C, E, bamboo silica and aloe vera extract. I come in a smooth peanut butter flavor, which means I play well with smoothies, granola, cereal, coffee, or all by myself with some plant-based milk. #beautyshot!

How can I help?

Aloe vera has been studied for its ability to help improve the appearance of wrinkles and signs of aging associated with collagen degradation,¹ while essential amino acids in protein and vitamin C are the building blocks of collagen production. My parents at Ora believe it's better for you (and the environment) to give your body what it needs to boost your own collagen production - no animal-based collagen required.
