

What am I?

I'm a digestive enzymes supplement with 15 different digestive enzymes and 1 billion probiotics. My enzymes include papain from papaya leaf and bromelain from pineapple and my hobbies include breakdancing and making your food more digestible!

How can I help?

Finding something a little hard to stomach? Let me help with that! I'm designed to support your digestive system by breaking down nutrients for absorption.[†] You can take me on a regular basis or on occasion for hard-to-digest meals. I'm best taken just before or with a meal.
