

MUSCLE FEAST

Muscle Feast Taurine is one of the most essential, useful, and safest amino acids. Taurine is best known for its beneficial effects on the heart and cardiovascular system. Early clinical research also suggests that taurine, in combination with caffeine, can produce improvements in mental performance. When the body engages in extreme physical activity, it will no longer be able to produce enough taurine on its own; therefore, supplementation with extra taurine will become necessary.

SUGGESTED USE:

As an adult dietary supplement, take one serving (2.4g) in 6-8 ounces of a water or a flavored beverage, 2-3 times per day or as directed by your doctor.

**MIX 1 LEVEL (2.4g)
