LACTOSE FREE

ICAPS® Eye Vitamin & Mineral Supplement AREDS formula contains the same antioxidant and zinc levels used in the National Eye Institute's Age-Related Eye Disease Study (AREDS). AREDS is a ground-breaking, 10-year clinical study that proved the benefits of these high-potency antioxidant and zinc ingredients in certain patients at risk*. It is important to note that the high-potency Vitamin C, Vitamin E and Zinc ingredients levels found in ICAPS® Eye Vitamin AREDS formula generally can be obtained only by supplementation and not through diet alone.

El producto "ICAPS® Eye Vitamin, Mineral AREDS", contiene los mismos ingredientes (zinc y antioxidantes) utilizados en el Estudio de Enfermedades Oculares Relacionadas con la Edad ("AREDS"), en idioma inglés. Basado a cabo por el Instituto Norteamericano de Investigación sobre Tratamiento de la Visión ("National Eye Institute" o "NEI", en idioma inglés).

Developed by Alcon, the global leader in eye care products.
