GLUTEN
FREE

Vitamin K-2 Soft Chews are a convenient alternative to pills and a great addition to your daily nutrition and health regimen.

Research indicates that vitamin K levels may decline with aging, and this lower amount of vitamin K is related to reduced bone density.*

Just one soft chew provides 100 mcg of vitamin K-2, which is good for the bone building process.* What's more, our Vitamin K-2 soft chews feature menaquinone-7, a superior, highly absorbable form of vitamin K-2.

These delicious soft chews are gluten free. Plus, they're individually wrapped, making them easy to take on the go.
