

DUAL-ACTION SLIMMING

For years, the original ProbioSlim® formula has helped countless men and women achieve better digestion and incredible weight loss with its unique and innovative blend of ingredients.

So what happens when you add SLIMVANCE® and its dual-action ability to reduce unwanted fat? You now have the opportunity to realize your most ambitious body transformation goals.

Key compounds work to minimize unsightly bloat and bulge, ease unpleasant digestive distress, and burn fat quickly for showstopping results that help you thoroughly Unleash Your Potential®.

UNLEASH
YOUR
POTENTIAL®

THE RESILIENCE & POTENCY OF LACTOSPORE™...

LactoSpore has received clinical validation and widespread popularity for good reason: its uncommon ability pass through the stomach to the intestines virtually unscathed helps it deliver results safely and effectively.

That means you can experience a rapid reduction of bloat and bulge, and relief from the unpleasant symptoms associated with occasional diarrhea, constipation, gas, and cramping. Also part of the LS4529™ Whole Health Superblend are green tea leaf extract to help you lose weight as part of a healthy lifestyle, caffeine to help boost energy and control your appetite, and specifically chosen prebiotics to help feed and motivate LactoSpore's probiotics for maximum efficacy.

...COMBINED WITH THE POWER OF SLIMVANCE®

SLIMVANCE is engineered to help men and women lose weight quickly through a distinct pair of biological pathways: the inhibition of lipogenesis, which is the storage of fatty acids in fat cells, and lipolysis, which is the increased ability to break down fat.

Taken daily, SLIMVANCE has been clinically demonstrated to significantly improve weight loss compared to diet and exercise alone. In fact, SLIMVANCE is so effective that participants in a recent clinical study who maintained a reduced-calorie diet and walked 30 minutes per day, 5 days per week, experienced a:

- ✓ 6x increase in weight loss versus the placebo group (11.8 lbs. vs. 1.9 lbs.)
- ✓ 3x reduction in waist circumference (2.11 inches vs. 0.68 inches)
- ✓ 3x reduction in hip size (1.76 inches vs. 0.49 inches)
- ✓ 6x reduction in body mass index (BMI) (2.04 kg/m² vs. 0.34 kg/m²)

Pounds Lost with SLIMVANCE

DIRECTIONS: Take 2 capsules with breakfast, and 2 capsules with lunch.
