### MineralRich®

When it comes to groundbreaking advances in technology, nothing compares to the remarkable design of the human body. Equipped with well-organized internal systems working side by side, we are without a doubt engineered for a lifetime of performance.

The best performance, however, is reserved for those making healthy lifestyle choices. Wholesome choices that include a regular and balanced supply of nutrient-rich fuel is the best way to ensure that your body has the necessary nourishment to perform exactly as designed — remarkably!

#### MineralRich®

® is a liquid mineral supplement that provides nature's blend of over 70 trace minerals, essential minerals, combined with vitamins B12 and biotin, in solution for effective and rapid absorption.

Delivering a broad range of nutritional support,

#### MineralRich®

contains proportionate amounts of naturally-occurring elements like magnesium for muscles; calcium and boron for strong bones and teeth; along with copper, zinc, and silica for healthy hair, skin, and nails.

#### MineralRich also won the 2008 Best of Supplements

Awards from Better Nutrition.

**Ingredients:** Purified water, naturally sourced pure fructose, magnesium complex (magnesium sulfate, magnesium citrate, magnesium gluconate), citric acid, calcium complex (calcium levulinate, calcium sulfate, calcium citrate, dicalcium phosphate), zinc complex (zinc sulfate, zinc citrate, zinc gluconate), sodium benzoate (as a preservative), potassium complex (potassium chloride, potassium citrate, potassium gluconate), manganese complex (manganese sulfate, manganese citrate), caramel color, cherry flavor with other natural fruit flavors, sodium metasilicate, cyanocobalamin, chromium complex (chromium chloride, chromium picolinate), polymnasil complex, biotin, and selenium complex (sodium selenite, selenomethionine).

A Treasury of Minerals® Proprietary Blend is a specially formulated blend of a natural mineral deposit (containing nature's balance of over 70 trace minerals) dissolved and suspended in our unique matrix. This natural mineral deposit is a uniquely rich and pure resource that has had elemental impurities such as lead, iron, fluoride, aluminum, and arsenic naturally precipitated out.
