

Lactase is an enzyme necessary to digest the milk sugar, lactose. The activity of this enzyme may decline after childhood, and difficulty in digesting dairy products may develop. Symptoms of lactase deficiency after eating dairy products include gas, bloating, intestinal discomfort, cramps and/or diarrhea. The addition of FORMULA 880 lactase enzyme supplement to the diet when consuming dairy products or taking medicines or vitamins containing lactose can relieve the discomforts of simple lactase deficiency.

Mfg. in an FDA Registered Facility using Good Manufacturing Practices (GMPs)

TAMPER EVIDENT: Do not use this product if imprinted foil seal under cap is broken or missing.

Keep tightly closed. Store at room temperature: 59°-86° F (15°-30° C). **KEEP OUT OF REACH OF CHILDREN.**

Conforms to USP <2091> for weight. Meets USP <2040> disintegration for maximum bioavailability.
